FINAL DETAILS
IN GLOBAL AID
BILL SETTLEDTRUMAN MAY SIGN
MEASURE BEFORE
END OF WEEK

By DOUGLAS B. CORNELL
Washington, April 1 (AP)—A team of Senate-House foreign experts went swiftly to work today on a final, compromise bill for a global American aid program.

House passage of its \$6,205,000,000 (B) measure by better than a four to one margin handed the job to the compromisers last night.

The goal is to get a bill to President Truman before the week runs out. Both Senate and House will have to vote first on the compromise.

SPAIN STRICKEN

Washington, April 1 (AP)—Senators and House members working out a compromise foreign aid bill agreed today to strike Spain from the list of nations eligible to share in the aid.

They acted within less than an hour after the White House announced that President Truman is "utterly opposed" to this provision.

The house put the aid-to-Spain provision into its bill. The Senate had rejected the idea.

What the experts agree to will be the final terms of a program to use America's billions and military knowledge to help Europe and China hold the line against Communism.

No Disagreement

On that broad purpose there is no disagreement between the Senate and House. Differences are over details.

What the House approved by a 329 to 74 ballot was a wrap-up bill to provide assistance for Europe, Greece, Turkey and China. Leaders had set April 1 as a deadline and barely squeezed the measure under the wire.

The Senate previously had passed three separate bills, one for Europe, one for China and a third for Greece and Turkey.

Chairman Vandenberg (R-Mich) of the Senate Foreign Relations Committee already has agreed to follow the House lead on a single bundle bill.

The basic parts of the House and Senate bills are pretty much alike.

Turkey Included

Both provide for a \$5,300,000,000 (B)-one-year European recovery program to help 16 nations.

Grand Rapids Pair
Admits Cracking 27
Kent County Safes

Grand Rapids, Mich., April 1 (AP)—Two men who have admitted 27 safe-cracking jobs in Kent county were lodged in police cells today following their return from Waukesha, Wis., yesterday.

The pair—Kenneth M. Olin, 36, and Harry J. Enrican, 31, both of Grand Rapids—waived extradition from Wisconsin.

Wisconsin police had accused them of two burglaries in that state, but turned them over to Michigan authorities to face the more serious charges here.

They have already been named in warrants charging them with \$3,000 burglary at a Grand Rapids theater and a \$260 theft at a garage in Sparta.

Sigler Says No
To Request For
Road Tax Boost

Lansing, April 1 (AP)—Governor Sigler threw up a road block today in the path of legislators who want to raise Michigan highway taxes.

Sigler shot back a blunt "no" to a formal senate request that he permit the question of higher road taxes to be considered at the current special session.

There were hints that Sigler's refusal to open the subject might cause some lawmakers to harass his legislative program.

At the same time, a bill proposing a new formula for dividing all highway revenues among the state and local units was ready for introduction in the house of representatives.

Headed by Senator Joseph P. Cloon (R-Wakefield), 23 of the 29 senators present signed and passed a resolution asking Sigler to let them consider higher highway taxes.

The only men who did not sign it were Senators Vandenberg, Hamilton, Nichols, Green and Smith—Republicans, and Bloddy, Democrat.

But Sigler told his press conference "I shall not open the leg-

islature for any increase in highway taxes. I specially stated my position on that and I shall not change it. We raise enough money to take care of this thing if we just do something about it."

He was understood to refer to his proposal for a change in the distribution system.

The new distribution bill ready in the house would give the state 44 per cent of all highway income, the counties 37 per cent and the cities and villages 19 per cent, to be divided and spent on a complicated formula.

The house, failing to pass the Senate demand for action, sent it to committee.

ACTION PRESSED
IN COAL STRIKE

Next Step In Shutdown
Put Up To Truman

BY NORMAN WALKER
Washington, April 1 (AP)—President Truman faced pressure from his own advisers today to step up action on the 18-day coal strike.

They want him to make some move toward ending the industry-wide shutdown before leaving this afternoon on a two-day trip.

The White House announced yesterday that a fact-finding report on the strike would not be made public until Mr. Truman returns Saturday from Williamsburg, Va. He is going there to receive an honorary degree from William and Mary college.

But one adviser said privately he planned to urge Mr. Truman to take some public action, although he added he did not know what it might be.

The fact-finding report submitted to the White House yesterday is reported to blame John L. Lewis, president of the United Mine Workers, for starting the walkout of 400,000 miners.

But it also was said to blast both the union and the mine owners for failing to agree on a way to pay miners' pensions from a \$22,000,000 untapped fund.

Filing the report with the White House was necessary, under the Taft-Hartley act's emergency procedures, before the president can ask the justice department to apply for a court order to end the strike.

Sadistic Slavings
Of Two Columbus
Women Unsolved

Columbus, O., April 1 (AP)—Authorities were virtually without clues today in the sadistic knifings of two women found dead late yesterday.

One victim, about 40, still was unidentified. She was found nearly nude in a bed at the downtown Ohio hotel. Stabbed 20 times with a pocket-knife, she had been dead for about 12 hours, coroner Mitchell Spayker said.

The body of Mrs. Marcella Smilack, 61-year-old mother of four, was discovered a few hours later in the basement of her southside home.

Coroner Spayker said she was raped by an assailant who slashed her throat with a 12-inch bread knife.

Threat to Salonika
Removed As Greek
Troops Oust Rebels

Athens, April 1 (AP)—An American military expert said today the Greek army has destroyed the Russian Mountain rebel stronghold and lifted the threat to Salonika.

Col. Temple G. Holland, chief of a joint military advisory planning group, said at Salonika Greek regulars "bottled completely" the main rebel force of 500 this morning. It was from the Krusna Mountains, northwest of the port city, that the rebels descended and shelled Salonika Feb. 10.

Press dispatches said Greek troops rammed a wedge through a key guerrilla defense point at Pontokerrasia.

Girl, 7, Prevents
Briggs Hotel Fire

Detroit (AP)—Seven-year-old Michelle Beck was credited Wednesday with averting a serious fire at the hotel Briggs when her Easter basket caught fire. The child, alone in a hotel room while her mother was at work, carried the blazing basket to the bathtub and then called the fire department. She suffered minor burns on her hands and face.

PLANES SENT
FROM U. S. TO
HELP TURKEYAIR - SEA DEFENSES
IN DARDANELLES
STRENGTHENED

By MORGAN REYNOLDS
Washington, April 1 (AP)—The United States moved speedily today to shore up air and sea defenses of the Dardanelles now guarded by 700,000 Turkish troops.

Carrying a cargo of former U. S. Air Force planes, the escort carrier Rendova was due to sail today from San Francisco for Istanbul.

The Navy announced late yesterday that this is the first of three shipments of planes which will be delivered under the Greek-Turkish military aid program. Two other escort carriers will make the ferrying trips from Norfolk in May and June.

The announcement did not say how many planes will be transported. The 12,000-ton escort carriers normally carry up to 90 Navy folding-wing planes, but probably not more than 30 or 40 Army planes could be handled.

Submarines will make a ten-day stay in Yesilkoy, an outer port for Istanbul, the Navy said. Meanwhile four late-model submarines are preparing to leave New London, Conn., for an unnamed Turkish port.

The subs, also transferred under the military aid program, will be manned by American crews for the delivery voyage. Turkish seamen trained in this country will be aboard the undersea craft.

An American military mission of about 260 men already is in Turkey giving instruction in use of military equipment furnished by the United States. The mission includes some 100 ground force

London Papers Give
Banner Headlines
To U. S. Charity Bill

London, April 1 (AP)—London morning newspapers gave banner line play today to house passage of the European Aid bill. Many of them still were critical of the action to make Spain eligible for Marshall plan aid.

The Daily Herald, organ of the ruling labor party, was blunt in its comment on the amendment concerning Spain.

"There is no doubt that a majority of the 16 (Marshall plan nations) are against the admission (of Spain)," it said. "The United States may or may not give assistance to Spain. And so far that is not decided. But Spain, under General Franco, cannot be brought into the cooperative organization. This is clear."

The Spanish amendment, approved by the House, must have Senate approval before it becomes part of the European recovery program law.

Foreign Aid Vote
Splits Michigan
Group in Congress

Washington, April 1 (AP)—Michigan's Republican representatives split evenly on the \$6,205,000,000 foreign aid bill yesterday.

Seven voted for it and seven opposed it as the House passed the measure 329 to 74.

In the Democratic camp, Rep. Sadowski voted against the measure and Dingell and Lesinski were not listed.

GOP representatives favoring the measure were Engel, Jonkman, Michener, Potter, Wolcott and Blackney. Rep. Coffin was paired in favor of the bill.

Casting negative votes were Republicans Bennett, Crawford, Youngblood, Woodruff, Dondoro, Hoffman and Shafer.

Michigan Has Coal
To Last 2 Weeks
Despite Mine Tieup

Detroit, April 1 (AP)—Michigan has enough coal on hand to last 10 days to two weeks more despite the miners' work stoppage.

Thomas J. Masterson, a spokesman for the governor's emergency fuel committee, disclosing results of a statewide survey, said some communities have reported their coal supply is at a very low level. However, he said no formal appeals have been made to State Police Commissioner Donald S. Leonard, emergency fuel coordinator, for emergency shipments of coal.

MARTIN ARRAIGNED — George Martin, center above, who has confessed that he was the driver of the automobile that killed Mike Kenovich on the North Bay Shore road early Tuesday morning, was arraigned Wednesday before Justice of the Peace Henry Ranguette on charges of negligent homicide, leaving the

scene of an accident and driving an automobile while under the influence of liquor. Prosecutor Clyde McGonagle, left, requested a preliminary examination which was set for Wednesday, April 7, at 2 p. m. Justice of the Peace Ranguette, right, fixed bond at \$2,000, which was not furnished.

Limit Of 3 Billion
Set By Truman For
Preparedness Fund

BY CHARLES MOLONY
Washington, April 1 (AP)—President Truman has put a top limit of around \$3,000,000,000 on the extra money the armed forces can ask right now for preparedness, a ranking official said today.

This man, who asked not to be identified by name, said the president based his decision to halve the military's own request on the assumption that war is not inevitable and in any event will not break out soon.

He said the president told the chiefs of the armed forces in laying down the top figure that he wants "a peace program, not a war program."

Earlier, White House officials had forecast a top of about \$4,000,000,000. The possibility remains that items not of a direct military nature may be added.

One such proposal is the building of new merchant vessels which could be converted into troopships. But even if a ship program is adopted, the official said, it will not be near the \$1,500,000,000 size mentioned in some preparedness discussions.

The official said the president took the position that:

1. The new program—stressing an increase in trained men through the draft and universal military training—would help assure peace by showing Russia that the United States is capable of acting to stop Communist aggression.

2. It also would be within the spending limits that Mr. Truman thinks the nation can bear without the threat of sharp inflation and full-scale wartime curbs—rationing, price ceilings and manpower controls.

The official said the president is determined to dovetail the preparedness program and foreign aid spending in such a way as to hold the inflationary impact to a minimum.

The activities of the agencies working on the various programs will be centralized directly under the president to keep the flow of extra billions from creating an unnecessary strain, this official said.

GASOLINE MAY
BE SHORT AGAIN

Industry To Consider
Voluntary Rationing

BY STERLING F. GREEN
Washington, April 1 (AP)—Oil industry leaders gathered today to decide whether to set up a voluntary gasoline rationing system to cope with an expected shortage this summer.

A 33-member petroleum industry advisory committee, holding its first meeting (10 a. m. EST) with Secretary of the Interior Krug, was expected to offer plans to keep vital services fueled with gasoline and oil during the next 12 months.

The session was arranged under terms of the Republican anti-inflation act passed late last year.

An interior department spokesman said the group would consider voluntary "regulations" to guarantee fuel for these and other essential uses:

Gasoline this summer — farm vehicles, planting and harvesting equipment; doctor's cars, ambulances, police and fire vehicles.

Fuel oil next winter—factories producing essential goods; hospitals and schools; homes where there are small children or aged or ailing persons.

Government officials have said the gasoline shortage is expected to be felt most keenly during the late summer harvests. A fuel oil shortage next winter may be even more critical than the one last winter, they contend.

Court to Protect
Boating Rights On
Tahquamenon River

Lansing, April 1 (AP)—The state conservation department plans to go to court to protect the boating rights of Tom Brown of Whitefish Bay on the Tahquamenon River in the Upper Peninsula's Chippewa county.

The department leased the boating rights to Brown. Today conservation legal aides said they planned to ask a cease and desist order to protect Brown's rights against other boatmen who have been taking parties up the river without commission approval.

GENERAL STRIKE
MENACES ITALYCommunists Stirring Up
Trouble For Election

Rome, April 1 (AP)—Italy may be gripped by a general strike at the time of her April 18 election test between Communists and anti-Communists. The walkout is threatened by the Communist-led Italian General Confederation of Labor (CGIL), some 6,000,000 strong.

CGIL President Giuseppe Di Vittorio, a Communist, said in Palermo, Sicily, last night the executive committee will call the strike April 3 unless police have found a missing Sicilian labor leader by that time.

If there is a strike, it will last until the case is solved. Workers will quit for an hour the first day, two hours the second, three the third and so on. That would mean a 10-hour layoff the day before the Sunday election. The first day, public service employees unlike others, would go out only a quarter of an hour.

The official said the president is determined to dovetail the preparedness program and foreign aid spending in such a way as to hold the inflationary impact to a minimum.

The activities of the agencies working on the various programs will be centralized directly under the president to keep the flow of extra billions from creating an unnecessary strain, this official said.

Twin-Engine Plane
Crash On Mountain
Kills All Aboard

Kingston, N. Y., April 1 (AP)—Search crews, slogging through mud and dense woodlands, today converged on the wreckage of a twin-engine plane that crashed last night on snow-capped Moonhallow Mountain, killing at least two persons.

Mile-high Moonhallow Mountain is about 25 miles west of here. A heavy rain impeded search operations as civilians, sheriffs' officers, state police and army units struggled toward the crash scene.

Witnesses said they saw the plane, flying low, hurtle into the mountainside and explode with a terrific roar. The burning craft sent flames hundreds of feet into the air, they said.

Houghton-Hancock
Bridge Is Repaired

Lansing, April 1 (AP)—The floor of the 1,142-foot bridge across Portage Lake between Houghton and Hancock will be replaced starting about April 15, the state highway department reported today.

Wooden timbers which have been supporting the concrete bridge floor since 1922 are to be replaced with steel and street car tracks will be removed.

The department said it would maintain one-way traffic across the bridge during the work.

Weather Continues
Cool For Midwest

Chicago, April 1 (AP)—Rain fell over wide sections of the east and south today. Skies cleared in most of the midwest after yesterday's showers and cooler weather appeared headed into the region from northwest Canada.

Heavy falls of rain were reported in some southern states. Falls in parts of Mississippi and Tennessee measured nearly two inches.

RUSSIA STOPS
TRAIN TRAVEL,
BLOCKS ROADSAMERICAN PLANES
EVADE MOSCOW
IRON CURTAIN

BY RICHARD KASISCHKE
Berlin, April 1 (AP)—The U. S. military government stopped its train service between Berlin and the American zone today because of suddenly imposed Russian traffic restrictions, and protested strongly to the Russians.

The Americans resorted to expanded air travel.

Britain and France joined in protesting the Russian order, effective last midnight, that all motor and rail passengers and freight entering the Soviet zone undergo Russian inspection at border control points. Four British and American trains were halted by Russians this morning.

Squeeze Play Seen

Allied authorities said the Russian action, in effect, was a demand that the three western powers surrender sovereignty on their trains and submit to a squeeze on their position in Berlin.

Gen. Lucius D. Clay, the U. S. military governor, said for the time being all U. S. military train travel to and from Berlin is cancelled. He said special flights from Frankfurt, U. S. zone headquarters, to the U. S. controlled Tempelhof Airport in Berlin will serve as a temporary stop-gap.

Clay said the Russian stoppage of train traffic could not be broken immediately without force. Berlin is an island of four-power control deep in the Soviet zone. It is more than 100 miles by rail or road from the nearest border point in the British zone, and farther from the American and French zones.

The British asked the Russians for immediate discussions. If the issue leads to a meeting of the four military governors, it will be the first session since the breakdown of four-power administration caused by the Russians' walkout on the March 20 meeting of the control council.

Truck Cargoes Checked

The Russian order seemed directed principally at freight. In their checks of motor transport, passenger automobiles were passed perfunctorily, but truck cargoes were inspected closely.

This recalled the recent Communist propaganda line in Germany that great quantities of machines and equipment were being spirited out of the Soviet sector into the other sectors of the city and zones of occupation. The western authorities say this claim is greatly exaggerated.

Air Force headquarters at Wiesbaden said it hoped to put into operation all planes necessary to move the normal number of train passengers and keep the more than 10,000 Americans in Berlin supplied with food.

The position of the western powers was one of waiting for replies from the Russians to their

NEW INDUSTRY LOCATES HERE

Will Make Mattresses And Pillows

Escanaba will have another new industry when the Delta Mattress & Upholstery company will open at 1414 Ludington street about April 15.

The concern will manufacture mattresses and pillows and will rebuild mattresses and furniture. C. O. McKenzie, owner and manager of the company, who has been in the mattress making business for 19 years, said today he expects to employ about fifteen persons after operations get well under way. He also operates a plant at Sault Ste. Marie.

The mattress factory will be located in the building to be vacated by Autoway Sales and Service.

Menominee Grips And Gets Better Postal Service

Menominee, Mich.—Bowing to protests that were mounting daily in volume and anger, the Chicago & North Western railroad revised its mail-and-express train to Menominee and Marinette whereby morning mail will arrive in the morning.

TRAIN 161 CHANGED

As the result of the change in schedule, northbound passenger train No. 161 will arrive in Escanaba 7:30 a. m., daylight saving time, instead of 5:15 a. m. Train 162, southbound to Chicago, will remain unchanged, and will continue to arrive from Ishpeming at 9:30 p. m., Escanaba time, and will depart at 9:45 p. m.

The Chambers of Commerce of Menominee and Marinette were informed today, by L. L. Wright of Chicago, vice president of the C. & N. W., that beginning tomorrow Train No. 161 will leave Chicago at 8:45 p. m. instead of 6:30 p. m. and arrive in Marinette at 4:30 a. m. and Menominee at 4:45 a. m. Scheduled arrival for this train in Menominee has been 2:18 a. m.

Most of the mail that ordinarily was carried on Train No. 121, due here at 6:10 a. m. will be carried by No. 161 under the new arrangement. Train No. 121, which has been cancelled due to the coal conservation order, had been scheduled out of Chicago at 9 p. m., so the 8:45 p. m. departure of Train 161 will provide the mail and express service formerly provided by Train No. 121.

Expect 5 Ore Carriers To Dock Here Tomorrow

Tomorrow is expected to open the 1948 navigation season at Escanaba, with five ore carriers scheduled for that day, and 14 others to follow before April 10.

Lee McMillan, C&NW dock agent, said each carrier would average about 10,000 tons cargo, which would make a total of nearly 200,000 tons of vitally needed iron ore moving out of Escanaba within the next week or 10 days.

The carriers E. J. Block and L. E. Block are scheduled to arrive at 10 a. m. Friday from South Chicago. The International is expected about noon, and the McCullough and Harvey Brown also are scheduled to come in tomorrow.

At Cleveland the U. S. Coast Guard reported ice free conditions at Escanaba. Lt. Commander Joseph Martin of the Coast Guard said there was "clean sailing" from the Straits of Mackinac to Escanaba, but refused to estimate when Lake Superior ports would be open.

It was previously estimated that ore loading at Marquette would not start until about April 17.

The ice committee of the Lake Carriers association plans to meet in Cleveland tomorrow to decide when the big ore carriers should be signaled toward Lake Superior. The committee voted yesterday to delay the ships.

The association reported the Interlake Steamship company vessel Harvey Brown was to clear Manitowish, and its C. H. McCullough Jr. from South Chicago to load at Escanaba.

From Toledo, the company's Harry W. Croft was destined for South Chicago, while the John Sherwin was to leave Sandusky, O., for Calcutta, Mich., a lake port two miles from Koscusko.

The Coast Guard cutters Mackinaw and Woodbine have been braking ice in Little Bay de Noc and the Escanaba harbor area for several days in preparation for the opening of navigation.

Last year a total of 4,141,642 tons of ore were loaded at the two C&NW ore docks in Escanaba, setting the highest peacetime loading since 1929. It is expected that the 1948 shipments from Escanaba will exceed those of last year, said Dock Agent McMillan.

DELTA HISTORY UNIT TO MEET

Will Elect Officers At Gladstone April 8

The Delta county Historical Society will meet at 8 p. m. Thursday, April 8, in the Gladstone high school library for an election of permanent officers, it was announced today by Charles Folio, temporary chairman of the group.

Election of officers will complete the organization of the Historical Society, in which considerable interest has been shown by Delta county residents. At the last meeting a nominating committee composed of Mrs. W. J. Anthony, Hagle Quarntrom and Clint Dunathan was appointed. They will report at the April 8 meeting.

It is proposed by the history group to hold its meetings in the several communities in the county. In this way additional interest and larger attendance is expected to result.

All interested persons are invited to attend the meetings and to become members, if they desire. Membership includes affiliation with the Michigan Historical Society and the benefit of its quarterly publications.

STOCK AUCTION LEASE TABLED

Use Of Speed Barn At U. P. Fair Sought

The Upper Peninsula State Fair board, meeting in Escanaba Wednesday, temporarily tabled a request of the Cloverland Livestock Auction of Rudyard to lease the speed barn at the U. S. State Fair grounds to establish a livestock auction here.

Fair Manager Harold Lindsay was instructed by the board to poll county agents and health authorities to determine the reaction of cattle raisers and health officials to the proposal. Some fear was expressed that there may be danger of infecting fairground facilities with contagious cattle diseases and thereby discourage the exhibiting of livestock at the State Fair. The legality of leasing fair property to commercial interests also was questioned.

The fair board approved the re-instatement of a department for Smith-Hughes school agricultural exhibits at the 1948 fair. Six Smith-Hughes schools in the Upper Peninsula will exhibit in this department.

The recommendation of the Upper Peninsula 4-H advisory council that the board provide dormitory facilities for 4-H members also was presented. The board

Mayor Proclaims Army Day, Tuesday, April 6; Program In Junior High

Calling attention to the need for protecting the United States, the "greatest democracy on earth", Marvin L. Coon, mayor of Escanaba, today urged the full cooperation of all residents of Escanaba and nearby communities in the observance of Army day, Tuesday, April 6.

"An invitation is extended to all residents of this immediate area to attend the Army day program in the William W. Oliver auditorium at the Escanaba junior high school next Tuesday evening," the mayor said. "It will be a meeting that will appeal to all lovers of democracy."

Iron Mountain News Gets High Rank In Typography Contest

Philadelphia (AP)—The F. Wayland Ayer Cup, top honor in the 18th annual exhibition of newspaper typography conducted by N. W. Ayer & Son, was awarded Monday to the New York Herald Tribune.

Excellence of presswork, make-up and typography determined the selection, the advertising firm said yesterday. The Herald Tribune was chosen from among more than 1,000 entries.

The Herald Tribune also was chosen best in its circulation classification—standard—size newspapers of more than 50,000 daily circulation. The Daily Oklahoman of Oklahoma City, Okla., was selected second in this group and the Christian Science Monitor third.

Among the standard-sized papers of from 10,000 to 50,000 circulation, first honorable mention went to the Rockford (Ill.) register-Republic; second honorable mention, the Iron Mountain News, Iron Mountain—Kingsford, Mich., and third to the Rutland (Vt.) Herald, winner of the top award last year.

In an Army day proclamation issued this morning, Mayor Coon said:

"Whereas the President of the United States has proclaimed Tuesday, April 6, 1948, as Army day, and

"Whereas our national safety and our privileges as free citizens of the greatest democracy on earth must needs be protected by a strong vigilant Army, and

"Whereas the ultimate defense of our homeland is borne by our soldiers on the ground, equipped and trained in ground combat:

"Now, therefore, I, Mayor of Escanaba, Michigan, in order to honor those who serve and have served in our country's Army, and particularly those who have fallen in the service of their country, do charge all citizens of Escanaba to aid in observing and commemorating Army day."

Treasury Complains U. S. Greenbacks Are Getting Shopworn

Washington (AP)—The nation's money, as many people have insisted all along, isn't what it used to be, the treasury admits.

But the treasury is talking about the tattered condition of the bills themselves—not the value of the stuff. It gave its views in testimony released by the House Appropriations Committee.

"Money is staying out longer than it should," said E. L. Kilby, commissioner of the Bureau of the public debt. "The condition of the currency in circulation is going downhill."

At the beginning of this year, Kilby said, there were 2,949,000,000 bills in circulation—1,197,000,000 of the \$1 variety. He said a \$1 bill lasts only about nine or 10 months.

Here, he said, is why the treasury has not been able to retire wornout money as fast as it would like.

Mead Corporation Report Discloses Increased Output

Dayton, Ohio.—The annual report of The Mead corporation released Wednesday reported sales of \$72,273,000 compared with \$53,429,000 in 1946. Tonnage shipped increased from 494,200 tons in 1946 to 522,500.

The company reports considerable progress during the year in extending the productive capacity of its fourteen paper mills, more than \$6,000,000 having been expended for such purpose. An additional investment of \$3,000,000 was made in Macon Kraft company, a sixty percent owned subsidiary which has under construction at Macon, Ga., a linerboard mill expected to come into operation early in April.

After a provision of 3,698,000 for federal and state income taxes and a contribution of \$1,186,000 in the Mead Retirement plan for employees of the company and its subsidiaries, earnings from operations amounted to \$5,685,386 being \$7.33 on the common shares. Additional earnings of \$771,000 of a non-recurring nature were also reported. Out of these earnings \$1.55 was paid in dividends on the common shares and the balance was retained and reinvested in the business of the company.

The report states that while dividends on the common shares

have shown moderate increases over the past five years they are still short of providing an adequate return on the money invested in the business for the reason that with rising prices it has been necessary for the company to maintain liberal working capital, to keep its plants in efficient competitive position and to expand its facilities to take care of customer requirements.

The report announces that the Mead retirement plan was put into effect late in 1947 by the voluntary participation of more than ninety-eight per cent of the qualified employees. The company has approximately 7,000 employees and the same number of shareholders. The report was issued over the names of George H. Mead, chairman and Sydney Ferguson, president. The annual meeting of the company will be held in Dayton, April 27.

CIRCUS TIME NEARS AGAIN

Billposters Will Soon
Be Posting Barns

Washington, D. C.—Knights of the bucket and brush for America's score of traveling circuses have taken to the road for a new season. The first of their gaudy bills of wild animals, acrobats, sword swallowers, and clowns are already posted on brick walls, barns, and fences. It might as well be spring!

Some of the changes the billposters take on ladders and ladders are as hazardous as the work the aerialists do under the big top, comments Beverly Kelley in the National Geographic Magazine. But gone is one hazard—the poster fight of the days before John Ringling bought out all his major competitors.

In those days, observes Mr. Kelly, himself a veteran troupier with the "Greatest Show on Earth," each season had its series of ferocious fights among the rival billposters. When two crews hit the same town, they would mix paste and mayhem.

Hickory-handled brushes were the weapons. Object was to pummel arms and shoulders until one crew or the other would be hors de billposting. A favorite sabotage was to sneak yeast or soap into the paste barrels of the enemy so that his sheets would peel loose soon after the paste had dried.

Made In America

Here today and gone tomorrow, the circus is a state of restless American achievement. Circuses there were, long before the Circus Maximus of Julius Caesar. And circuses in other lands today have excellent talent. But they lack the frantic schedule of a new town nearly every day, and the drive that moves a four-train, 100-car show over the map from early April through November.

A circus can cover about 150 towns a year. Communities not getting one of the big railroad shows usually may see one or more "mud" shows, so dubbed in the trade because they travel

highways by motor-truck caravan instead of by rail.

Circus people as well as animals come from all over the world. In the "Greatest Show on Earth" of 1947, more than 40 of the acts made their first American appearance. Mixed nationalities, creeds and colors got along well together. Lasting friendships were made.

Among circus animals, zoologists rank the chimpanzee first in intelligence, the orangutan second, the elephant third. They reserve judgment on the gorilla whose fierceness increases with age and limits chances of appraising his mentality.

Gargantuan Apes Ancestors

Savage Gargantuan's every act is news. Eating eight meals a day, he rolls up at night in a cheap cotton blanket which he rips to shreds the next morning. Credit his ancestors of the African jungle. They made mighty nests among vine-draped trees and never slept twice in the same place.

Elephants, rarely born in captivity, come from Asia or Africa. They are usually strangers to peanuts until they reach America's shores. They swallow water not through their trunk but by sucking it part way through, then squirting it into their mouths. Insects drive them nearly crazy in hot weather, despite the fact that shaving their hides with a blowtorch flame merely tickles them.

The Big Show is goods—76,000 yards of canvas in 1947. More than 1,000 costumes for people and for animals, with styles changing annually, present a special problem.

There are about 245,000 grade and high schools in the United States.

NEW ORLEANS CHANGED NOW

It's Not Like It Used
To Be, Says Ruark

BY ROBERT C. RUARK

New Orleans.—They sure have frowned up the French Quarter in this town since the war. They've made it a cheap carnival and a clip joint, where it used to be quietly wicked and fairly economical in its wickedness.

Since the gambling moved out of town into Jefferson parish and the cops started discouraging naughtiness, they have evidently tried to compensate for a new and unaccustomed purity with a surface gaudiness which is a lot less New Orleans than Chicago's loop. You can't dig up a decent native boogie-woogie virtuoso in the quarter now—not, at least, until Fats Pichon comes back from New York—but there are more displaced Yankee strippers than rats. It's difficult to walk down Bourbon St. without being knocked unconscious by a hurled torso—a torso that probably was operating in Cleveland, O., before they legally frowned on wilful nakedness in that city.

Neon Signs Everywhere

The once quiet little holes-in-the-walls now have neon signs and bankers extolling the charms of the dozen-count 'em—goose-pimped dames who writhe, bump and grind inside. A coke, a beer and a watered scotch costs the same—one solid buck—and if you aren't careful one of the frenzied ladies will nudge it out of your hand with a hip.

You used to be able to sit down in New Orleans and nibble at a 40-cent drink and listen to a spate of sorrowful blues. If a lady started to disrobe in your vicinity she was apt to be an irrepresed customer. Nobody grabbed you by the nape, as you walked along, and hurled you into a floorshow.

But now they have the fat comedians from the Bronx—the kind of doleful comic who turns his hat up in front and rewrites Milton Berle material with a dirty chalk. They have one character pridelfully billed as an imitator of Al Jolson, which sets some sort of record in fruitless scavenging. They peddle worn-out acts from the cheaper gimmicks in the larger northern cities, and the shopworn spirit of New Orleans itself is hawked on the streets much as a county fair pitchman sells his combination potato peeler-bicycle pump. The quarter today looks more like 42nd and Broadway than the old Vieux Carre.

There are now, just a handful of places which make any attempt to perpetuate the old town's spirit. Charlie Cantrell, at Pat O'Briens place, herds his raucous tourists indoors, but keeps a quiet patio outside where a man can sip a beer without applauding some fugitive performance from a flea-circus.

LaFitte's, away down in Bourbon St., still regards its customers as more amusing than any act which might be booked into the place. Owen Brennan, at the old Abbot's house, took one fling at a big floor show and got sick to his fiscal stomach. He is currently awaiting the return of Monsieur Pichon, who can play a piano and cite the virtues of a big fat mama without clubbing the customer's brains out.

Carpet Baggers Take Over

But the places are few and far between. The Court of the Two Sisters used to be touristy but quiet, but now they have piped music into the courtyard and afflict the visitors with a daytime drink which is pink and characterless. The chumps stand for hours outside the restaurants, and are greeted inside with something passing contempt. They have been forced to mass-produce New Orleans food, even as they mass-produce New Orleans atmosphere—I suppose, to meet the custom-

Birthday Party

Isabella, Mich.—Albert Pilon was guest of honor at a surprise party arranged in honor of his birthday anniversary, held Saturday evening at his home, with 35 guests present.

Cards were played, Mrs. Napoleon LaChapelle receiving the high score award and the traveling prize; Mrs. Meta Cayemberg, consolation prize and Mrs. Joseph Pilon guest prize.

Those at the party were Mr. and Mrs. Richard Gouin, of Kalamazoo, Mr. and Mrs. Edward Gouin, Escanaba, Mr. and Mrs. Joseph Pilon, of Nahma, Mr. and Mrs. William Pilon, Mr. and Mrs. Arthur Weberg, Mr. and Mrs. Harold Frederickson and Mr. and Mrs. Napoleon Lachapelle, Escanaba, Clifford Bourgeois, of Percy Jones hospital, Battle Creek, and Mr. and Mrs. Lloyd Anderson, Mr. and Mrs. Felix Papineau, Mr. and Mrs. Albert Gouin, Mr. and Mrs. Oliver Gouin, Mr. and Mrs. William Vinette, Mr. and Mrs. Henry LeGault, Mr. and Mrs. George Johnson, Bobby Gouin and Marie and Joseph Bourgeois, of Isabella.

Mr. and Mrs. William Vinette and daughters, Barbara Ann and Del Rosa, have returned from an Easter visit at the Howard Johnson home in Engadine.

Bark River

Mrs. Herman Palmgren and son Kenneth spent the past few days in Chicago visiting at the home of her son Marvin Palmgren.

Mr. and Mrs. Lawrence Knaut and children spent the weekend with relatives at Rudyard.

Michael Belanger has returned from Battle Creek, Mich. where he was a patient at the Veterans hospital for the past several months.

Miss Teresa Peltier spent her Easter vacation at the home of her parents, Mr. and Mrs. William Peltier.

Mr. and Mrs. Henry King of Gladstone, R. I. visited at the home of Mr. and Mrs. William Peltier Monday.

ers demand.

I have been very sentimental about New Orleans, ever since the first night I stood the Bourbon St., watch, and I wish they would give the French Quarter back to the natives. Strippers I can see in Chicago, flea circuses I can enjoy in New York, and sidewalk pitchmen I can do without, permanently.

The big thing about New Orleans used to be that you could saunter around feeling dangerously wicked on a couple of bucks, and while nothing ever came of it the feeling stuck with you. That is impossible today, on account of too many naked northern ladies, low comedians, guides, shills, queues, tattoo artists, picture-snappers, and praline-peddlers. Trouble is, I guess, that the car-pethaggers have taken over, and us Creoles are being crowded into the gutter.

'Draft Ike' Movement Is Springing Up Again

BY MARC J. PARSONS
NEA Staff Correspondent

A new "DRAFT EISENHOWER" movement is springing up across the nation today after the lull that followed the General's declaration that he was not a candidate for the White House.

New organizations are setting up shop under such banners as "People for Eisenhower" and "National Committee for Eisenhower and Unity." Some definitely aim their backing for Ike as either Republican or Democrat. Others indicate no party preference. And there is a scattering of professional political support from Democrats dissatisfied with the Truman administration.

Torrey Stearns, an advertising executive on leave from his company, is directing "People for Eisenhower," with headquarters in New York. He hopes to persuade the Republicans to make Eisenhower their candidate.

"Millions of U. S. citizens throughout the country believe that the urgency of the hour calls for an outstanding leader to represent the people as President of the United States," Stearns says in his platform.

"They continue to believe that Dwight D. Eisenhower is that leader and that he should be the next President of the United States."

Stearns' plan for accomplishing this is to have people from all over the country write cards or letters saying "I want to vote for General Eisenhower for President in November. I am a citizen of voting age" and then mail the cards to "People for Eisenhower," P. O. Box 671, New York 8, N. Y.

He has arranged for an independent firm to gather and count such ballots and will publish the totals weekly until convention time. Then, when the Republicans gather in Philadelphia in June, he plans to dump every letter and postcard on the convention floor. He believes the delegates can't overlook such evidence of voting preference.

A New York hotel man, Paul Stockhammer, has formed the "National Committee for Eisenhower and Unity" and hopes to build up the General's strength by a write-in vote campaign in a number of state primaries, possibly starting with the Wisconsin primary April 6.

Some former GI's apparently without any formal organization, are using old "Order to Report for Induction" forms which they are filling in and mailing to Eisenhower.

Topped by a note—"Dear Ike: We couldn't refuse this draft! You can't refuse ours. It's the same deal"—the "Order" says:

"GREETINGS: Having been submitted to a local board composed of your neighbors for the

PEOPLE for EISENHOWER

Under a big picture of Ike, Torrey Stearns counts Eisenhower buttons at New York headquarters of "People for Eisenhower."

purpose of determining your availability for training and service in the best interests of the United States, you are hereby notified that you have now been selected for training and service in the Presidency." The General is ordered to report to "The White House" on "Inaugural Day."

The notice says the General's branch of service will be "Democratic Party."

Daniel James, a New York music publisher, and MacDonald Deming, a lawyer, have just organized under the matter-of-fact title of "Draft Eisenhower Movement."

"We're non-partisan in that we have Republicans, Democrats, and American Labor Party members working with us," James says, "but we feel the logical place for the General is on the Democratic ticket."

James' group has started circulating petitions across the country for presentation to the Democratic convention and plans simultaneous demonstrations in eight to 10 cities April 27. They have already lined up meetings

for that date in New York, Chicago, Detroit, Philadelphia, Pittsburgh and Los Angeles.

So far, the only active professional political support for the new Eisenhower movements seems to come from dissatisfied Democrats, both in the north and south.

In Chicago, Jacob M. Arvey, who succeeded Boss Ed Kelly as machine leader, is openly backing Eisenhower as the Democratic candidate.

James M. Power, Brooklyn, N. Y., Democratic leader, has formed an Eisenhower for President club in his district. There are reports that both Bronx Democratic boss Ed Flynn and New York's Mayor William O'Dwyer are giving serious consideration to Ike's candidacy.

Several Southern Democrats have mentioned him as their party's hope.

The movement has been given impetus among young veterans by the endorsement of Eisenhower by Franklin D. Roosevelt, Jr.

A number of right-wing AFL and CIO leaders, also dissatisfied with Truman, reportedly hope Eisenhower can be stamped into the Democratic nomination.

The new movement has produced no further word from Eisenhower himself, whose disavowal of the candidacy was originally expressed in a letter to Leonard V. Funder, publisher of the Manchester, N. H., Union-Leader.

Funder, who was then spearheading the Eisenhower boom, now says that "my own feeling is that the international situation today represents some obvious and overriding reasons when make an exception in Eisenhower's case to Ike's declaration that professional soldiers should abstain, or 'seeking' high political office."

"All of the growing talk on the part of people in general, columnists and commentators, demonstrates that the people feel similarly," Funder points out. "In recent weeks, I have found an absolute unanimity of opinion, with the possible exception of professional politicians, about the importance to our welfare in having Eisenhower as our President during the next four years."

Thus far, however, Funder has not affiliated himself with any of the new groups.

What do you want to know? We will answer questions on any subject not involving extended research. Legal or medical advice cannot be given. Write your question clearly, sign your name and address, and (IMPORTANT) MAIL THIS column and a 3-cent stamped, self-addressed envelope to Escanaba Daily Press Service Bureau, 1217 Thirteenth St., Washington 5, D. C., for a personal reply. Don't telephone; write as directed.

Q. Recently I converted my term National Service Life Insurance to ordinary life insurance. My insurance certificate has my contract dated as of the date of conversion. Should it not be dated back to the original date of issuance?

A. Only if a lump sum payment of the difference in the reserve between the two types of insurance is made, would it be dated as of the date of issuance.

Q. Where is the Chincoteague National Wildlife Refuge?

A. It is that section of the Chesapeake Bay surrounded by the eastern shore of the Bay. The Refuge contains about 250 acres of shellfish grounds for which the area is famous. About 184 acres of these grounds are under cultivation. Chincoteague oysters are highly reputed for their quality. The fact that they grow in water as salty as the open ocean probably is responsible for their distinctive flavor.

Q. How does Connecticut rank

in size and population with the rest of the States?

A. Forty-sixth in size, thirty-first in population, and fourteenth in manufacturing.

Q. Now that spring is here, I would like to clean my chimney. Have you a formula for that purpose?

A. Copper sulphate, 7 parts; coarse salt, 6 parts; ammonium chloride, 8 parts; saltpeter, 2 parts; coke dust, 2 parts. All parts are by weight. Mix well and use by throwing on a hot fire.

New! Different! Procter & Gamble's WASHDAY MIRACLE for your whole family wash!

IT'S TIDE

... you've never used anything like it!

Discovered as a result of wartime research, Tide amazed even the men of science who discovered it! Tide does what's never been done before—washes clothes cleaner than any soap made, yet actually leaves colors brighter! Try Tide for your whole family wash... trot out your worst washday problems and watch Tide laugh them off! Stubborn dirt and grease? Nothing's too dirty for Tide! Hard-water problems? Tide whisks up oceans of suds even in hardest water!

ONLY Tide DOES ALL FOUR!

1. Washes clothes CLEANER!

Yes, cleaner than any soap! Even greasy overalls... and grimy play clothes with the dirt ground right into the fabric... they all come thoroughly clean! Tide not only leaves clothes free from ordinary dirt, but actually removes dingy soap film as well. Tide laughs at stubborn dirt!

2. Gets clothes dazzling white—they're CLEANER!

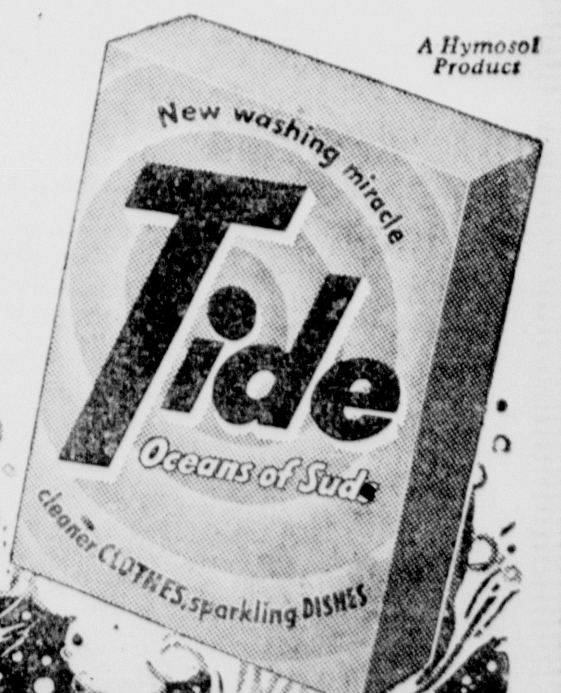

Yes, shirts, sheets, towels and pillowcases come so much cleaner with Tide, they simply gleam! And they keep that dazzling whiteness week after week... Tide never turns them yellow!

3. Actually brightens colors—they're CLEANER!

By making dulling soap film disappear, Tide gets your gay print dresses so much brighter you can see the difference! Does it safely, too! Yes, even with all its terrific cleaning power, Tide is truly safe for all your washable colors! It's amazing!

4. Gives more suds—prove it in your dishpan!

Kind-to-hands suds! Faster suds! Longer-lasting suds than any soap in hardest water! Tide cuts grease like magic... washes dishes cleaner than any soap! No scum in the water! No cloudy film on dishes and glasses! That's why they rinse and dry so sparkling clear—even without wiping!

TIDE'S IN-DIRT'S OUT!

Baking Democrats May Talk Truman Out Of Nomination

BY JACK BELL

Chicago, April 1 (AP)—Some Republicans began worrying openly today about the possibility that the Democrats may talk President Truman into giving way to another presidential nominee.

An assertion by Sen. A. I. Mil- (R-Neb.) that talking Democrats are acting "like a pack of marauding jackals in attempting

to tear down the candidacy of Harry S. Truman" was picked up quickly here by Warren Wright. Wright, unofficial manager of a campaign aimed at landing the GOP presidential nomination for Gen. Douglas MacArthur, told a reporter he would rather see the General run against President Truman than any other available Democrat. He said he had talked with Miller about this.

Wright was voicing a view that has been passed around quietly in the camps of other GOP hopefuls such as Senator Robert A. Taft of Ohio and Gov. Thomas E. Dewey of New York. They frankly think Mr. Truman will be easier to beat than some Democrat who could unify the party.

These Republicans privately figure, however, that the only way Mr. Truman can be removed from the race would be by his own consent. But they admit that if the President okayed a switch just before his party's convention — and after the Republicans had nominated their candidate — there would have to be some fast-breaking GOP strategy changes.

As a matter of note, these Republicans talk of Secretary of State Marshall as about the only Democrat who could step so quickly into the nominee's shoes — this despite Marshall's vigorous rejection of previous political passes.

Minus any reliable crystal ball, Republican candidates kept on directing their fire at Mr. Truman. Dewey, changing trains here today on an invasion of Wisconsin, was ready to let go with a roundhouse swing at the President's foreign policies in a Milwaukee speech tonight.

Tied to the bipartisan foreign policy through his own close connection with John Foster Dulles, the New York governor is expected to skirt that angle. Dewey brought along with him word that he will play out the string of primaries through Oregon's May 21 vote even if bad political luck overtakes him in Wisconsin's delegate-picking contest next Tuesday.

Door Open To Russia

These 16 nations are Britain, France, Italy, Norway, Sweden, Belgium, the Netherlands, Luxembourg, Portugal, Switzerland, Iceland, Greece, Turkey, Eire, Denmark and Austria.

But the door would stay open for Russia and her satellites to come into an economic recovery program if they, too, ever agree to cooperate on the right terms.

In addition, the House held out an invitation to Spain to join in. It riveted down its decision on Spain by a 188 to 104 vote just before passing the Foreign Aid bill.

But that is one point on which the Senate may refuse to go along. The Truman administration is strongly opposed.

The House made other changes too that will need the attention of the compromise teams picked from members of the two foreign committees.

A requirement that \$1,000,000,000 (B) of the European aid be in the form of loans.

Broad power was given the administrator to see to it that Russia and her satellites get no more war supplies from the United States, and that nations receiving American materials don't manufacture them into war goods for Eastern Europe.

A demand for written notice to Congress that every employee in the ERP administration is loyal to the United States.

Even a "prohibition amendment" — none of the corn to be supplied for the program can be in the form of whiskey.

REVELLI FAMED AS BANDLEADER

U-M Musicians Will Give Concert Here

William D. Revelli, conductor of the University of Michigan concert band which will appear in Escanaba is a national leader in the school band movement.

The band's concert in the William W. Oliver Auditorium will be sponsored by the Delta County University of Michigan Club. The concert is scheduled for 8:15 p. m. on April 9.

Prof. Revelli received his musical training at the Beethoven Music Conservatory in St. Louis, Mo., the Columbia Music School, the Chicago Musical College and the Vandercook School of Music, in Chicago. In 1925 he was appointed music supervisor in the public schools of Hobart, Ind.

Here Prof. Revelli became interested in the school band field and organized a department of instrumental music in the Hobart Schools. As conductor of the Hobart High School Band, he directed that organization in winning five consecutive national championships.

In 1935, Prof. Revelli was appointed to the faculty of the University of Michigan School of Music and named conductor of University bands. Under his direction, the marching and concert bands have achieved national distinction.

The marching band has been proclaimed the "All American Band" three times by press and radio commentators. The concert band has received considerable praise from music critics for its arrangements and renditions of symphonic band music under conductor Revelli.

Prof. Revelli is a member of the American Bandmasters Association, Kappa Kappa Psi, an honorary college band fraternity, and a number of other music organizations. He is editor of the "World of Music," a book on band and orchestra methods and is an editor of the "Etude Music Magazine." In June, 1947, Prof. Revelli received the honorary degree of Doctor of Music from the Chicago Musical College.

protest notes. These notes, delivered last night, rejected the Russian officers and men, 100 from the Air Force, about 40 from the Navy and 20 experts on road construction.

A smaller mission assigned to Greece is helping direct government forces in military operations against the Communist-led guerrillas.

Maj. Gen. Horace L. McBride, head of the Turkish mission, disclosed recently that the "big shipment" of military supplies started in February. He did not say what types of equipment were being delivered, but the Army said last month they included about 100 light tanks. About 60 M-24 tanks armed with 77-M guns, along with some 105-MM guns, trucks and ammunition were in one shipment on March 17.

Propaganda Renewed
In recent weeks American officials have expressed fear that Russia will step up its drive to gain control of the strategic Dardanelles. There were similar fears last year. They prompted President Truman to ask Congress then for the \$400,000,000 Greek-Turkish aid program.

The program is due to be expanded with \$275,900,000 in new military aid. There has been no breakdown of the amounts each country will get under the measure now nearing final congressional approval. But it has been indicated that Turkey will receive about \$100,000,000, the same as in last year's fund.

Russia's renewed interest in the Dardanelles area is indicated by a Moscow broadcast warning the Greeks to beware of Turkey. It said Turkish troops are being moved to the Greek border and will seize the province of Thrace on some pretext.

The broadcast, recorded by the United States official monitoring service, also assailed a proposed treaty between Greece and Turkey as dictated by "Anglo-American imperialists."

Thrace, bordering European Turkey, is claimed by Communist-run Bulgaria.

sian measures as unacceptable and a violation of Allied agreements.

The Russians demanded yesterday that, starting at midnight, all passengers and freight entering their zone be subjected to inspection at border control points. British and American authorities ordered their train commanders not to yield to this demand.

Traffic Piled Up
The result was that overnight passenger trains were stopped and turned back at Marienborg. Soviet control point some five miles east of the border with the British zone.

This caused a pileup at Helmsstedt, just across the line in British-occupied territory. Within five hours after midnight, four American and British trains had been turned back, three to Helmsstedt, one to Berlin.

Clearly the western powers' prestige, as well as their position in Berlin, was involved in the inspection issue.

The Russians claimed their restrictions, imposed on only 24 hours' notice, were necessary to "insure safety and check rumors." Allied officials did not take these claims seriously. They said most illegal road border crossings have been westward rather than eastward.

The German people here closely watched this new strain in relations between the east and west, which recently had been worsened sharply by a Russian walkout on the four-power Allied control council. Right after the walkout, a Russian-licensed Berlin newspaper suggested that the western powers get out of Berlin.

A Socialist party newspaper interpreted the latest Russian action today as an indication "the iron curtain may drop before Berlin."

Move to Cut Staff On Liquor Control Criticized By Toy

Detroit, April 1 (AP)—Police Commissioner Harry S. Toy today criticized the state legislature for its initial moves to cut the liquor commission's staff of investigators from 82 to 55.

"The state is in the liquor business, not the cities or counties," Toy declared as he called for maintenance of the full staff.

"The state will lose more money through inadequate enforcement than will be gained through small cuts in the investigating personnel," he added.

Toy said the proposed slash, which was okayed by the house this week, "would put the problem of liquor law enforcement almost entirely in the hands of local police."

He expressed belief enforcement would practically cease in many small communities because local

Consul at Windsor,
Target For Gunman,
To Be Transferred
Washington, April 1 (AP)—American Consul John Bankhead of Windsor, Ont., target of an unidentified gunman Sunday night, is going to be transferred to another post.

State department officials today confirmed reports that Bankhead, called here for consultations after the attempted shooting, had asked for a transfer.

He conferred with department officials yesterday and will return to Windsor for temporary duty after the consultations are finished here.

Bankhead told superiors two previous attempts were made on his life. He said he had received poisoned candy and liquor prior to the shooting incident.

State department spokesmen described his transfer as "routine" and added he had been at the Windsor post since July 10, 1945.

The House un-American activities committee asked special protection for Bankhead following the attempted assassination Sunday night.

More Blast Furnaces Banked In Coal Tieup

Pittsburgh, April 1 (AP)—The steel industry counted 38 blast furnaces banked today as the 18-day-old soft coal walkout bit deeper into national production. Another five will be closed within the next few days if the shutdown continues.

The 400,000 members of the United Mine Workers, idle to back up their demand for \$100 monthly pensions, today celebrated John L. Lewis day — also known in some areas as Mitchell day, in honor of the sponsor of the eight-hour working day.

Meanwhile, throughout the country more than 30,000 other workers were idle in steel, rail-

road and other industries closely allied to coal.

Coal-Carrying railroads were hard hit. The Chesapeake and Ohio had furloughed 13,400 employees and the Baltimore and Ohio an estimated 6,000.

Other railroads reported these workers laid off: The Pittsburgh & Lake Erie, 670; the Virginian & Chicago, Milwaukee, St. Paul and Pacific, 200; and other lines, smaller numbers. The New York Central planned to lay off 725 at its East Buffalo yards and 800 at Cleveland by Saturday.

Birmingham, biggest industrial center of the South, reported steel production cut to approxi-

mately 68 percent of normal and about 3,000 workers were idled by the coal shortage.

The Carnegie-Illinois Steel Corp. at Youngstown, Ohio, said it probably will bank another blast furnace today. This would cut the number of operating furnaces at all plants in Youngstown from a normal 25 to 17.

The Hanna Furnace Corp. said it will shut down one of its four blast furnaces at Buffalo in a few days but will assign the workers temporarily to other jobs.

The Bethlehem Steel Co., announced curtailments at two plants. At its Lackawanna, N. Y., mill, pig iron output was halved and eight of 28 open hearths were down. The Johnstown, Pa., plant had 900 workers idle, three or seven furnaces closed, and steel ingot production cut to 65 percent.

Housewives Find
Variety Of Uses
For Home Freezers

Most people think of a home freezer as a place to store meat, but the American housewife has found a variety of uses for it, said Miss Mary Carmody, home economist, in a demonstration lecture at Escanaba senior high school yesterday.

Meat and fish can be packaged in moisture-proof paper and quick frozen at 15-20 degrees below zero. The success of good freezing depends on the quality of food before it is frozen, proper wrapping and maintenance of steady below zero temperature.

In addition to meats, whole meals, fruits and vegetables, bakery goods and ice creams can be stored by freezing. Miss Carmody stated that at present grapefruit is a very good fruit to store. It can be purchased at a fairly low price. The fruit is peeled, packed in sections in freezer jars, and covered with sugar syrup. Two grapefruits make a pint.

In freezing vegetables, scientific investigation has shown that it is necessary to blanch or steam vegetables. Special instructive bulletins are available on the length of time necessary for various vegetables. Over-steaming will result in loss of vitamin C.

In freezing vegetables and meats there is no more vitamin loss than in other methods of preserving, explained the home economist. In preserving meat, however, it is better not to add salt, as it tends to make fat become rancid.

Bakery goods can be frozen for convenience, either baked or unbaked. In her lecture yesterday Miss Carmody told of the French meat pie, frozen by the French long before the home freezing units hit the market. For some foods freezing increases flavor and texture as well as preserving it.

Bread can be frozen solid, and then toasted for a new taste treat. All cooked foods freeze well. Another factor which appeals to housewives is that shrinkage on a three-pound roast is the same as on a six-pound roast. By cooking a large roast at one baking, and then storing it for future use, a considerable saving of meat, time and fuel results.

Sandwiches can be made ahead of time and stored for use later by wrapping in moisture, vapor proof cellophane. Left-overs can also be stored in the freezing units, with no loss of moisture.

One of the latest ideas in using a home freezer involves a table centerpiece. An angel cake can be frosted with colored icing, packed with ice cream in the center and then wrapped in cellophane for freezing. After it has frozen solid, the housewife can take it out and use it as a centerpiece. By the time guests are ready to eat it, it is sufficiently thawed.

Some of the new features on freezers include a special sharp freeze, temperature control, alarm system, to tell when the unit is too warm, insulation and all-round attractiveness as well as compactness.

Church Events

Special Service Sunday

Rev. L. R. Lund will hold services at the Halvor Larsen home, 15 miles south of Escanaba, on M-35, Sunday afternoon at 3 o'clock. Neighbors and friends are invited.

Swedish Service Sunday

A service in the Swedish language will be conducted by Rev. Gustav Lund at Bethany Lutheran church Sunday morning at 9 o'clock. The regular morning worship will be held at the usual hour, 10:45 o'clock.

Viewpoint Helps
Make Man's WorldBY RUTH MILLETT
NEA Staff Writer

It's a man's world, all right. Just look at the difference in these descriptive words and phrases, depending on whether one is referring to a man or a woman.

If he doesn't marry, he's a "bachelor"—glamorous word. If she doesn't marry she's an "old maid."

When it's his night out he's "out with the boys." When it is her night out she's at a "then party."

What he hears at the office is "news." What she hears at a bridge party is "gossip."

If he runs the family he is "head of the house." If she runs it she "wears the pants in that family."

If he is overly-solicitous of her he is a "devoted husband." If she is overly-solicitous of him he is "hen-pecked."

If he keeps his eye on her at a party he is an "attentive husband." If she sticks close to him she is a "possessive wife."

Middle-Age Difference
In middle-age he is "in the prime of life" or "at the peak of his career." At the same age she's "no spring chicken."

If he is an easy spender he "doesn't deny his family anything." If she doesn't count the pennies she's "extravagant" or a "poor manager."

If he hasn't any small talk he's "the quiet type." If she hasn't any she's "moosey."

It all depends on one thing—whether you're speaking of a man or a woman.

Male horseflies don't bite. They get their food from plant juices.

Dramatists Present
Three-Act Play In
Bonifas Tonight

The curtain will ring up on "Three Corners Moon" promptly at 8:30 tonight in William Bonifas auditorium. The three-act play is the first post-war presentation of Escanaba Civic Theatre.

Tickets will be available at the door; and persons attending the lecture in the junior high school at 7 p. m. will be out in time for the show.

Considerable comment has been observed on the staging of the play in William Bonifas auditorium. Civic Theatre early found the smaller auditorium more fitting for intimate theatre work and are proud to stage their production in the memorial building.

The final full dress rehearsal was held last night. Several theatre members were in the audience for a critic's pre-view; they found the drama intense and moving, and the comedy lively.

Social Situations

SITUATION: You plan to buy an engagement ring for your fiancée.

WRONG WAY: Choose the ring you like, thinking she will be sure to like it, too.

RIGHT WAY: Either find out what type of setting she prefers, or let her go with you to select the ring.

Funeral arrangements have been assigned to the Kefauver & Jackson Funeral Home and tentative plans for military honors will be made by the Schoolcraft County Burial committee.

Police To Check Record Of Man Arrested Here

Harold Shananaquet of Ensign, pleaded guilty in local justice court Wednesday afternoon to a charge of malicious destruction of property. George Jones, who operates a logging camp in the Seal Choix vicinity, making complaint, accused the Ensign man of damaging property in his camp. Judge W. G. Stephens deferred sentence until Saturday in order that a checkup of Shananaquet's past police record can be made. The defendant is being held in the county jail until that time.

The arrest, Tuesday in Manistique, was made by a city police officer. Shananaquet, a tall and rangy individual, started creating a disturbance in a local

WILL PROMOTE CONCERTS HERE

Better Music Objective
Of Club Formed Here

The Manistique Music Organization formed for the purpose of promoting better music, on a non-profit basis in the community came into being at a meeting held Monday evening. Attending the meeting were Mrs. James Fyvie, Fred Heltman, Carl Olson, Otmer Schuster, Clinton Leonard, Ferdinand Gorsche and Norman Martin.

For some time many local residents have been talking about the possibility of getting a good concert here and the meeting was a result of these many expressed wishes.

An immediate result of this meeting was the making of definite arrangements for the appearance here some time in mid-May, of the Chicago String Ensemble, assisted by Miss Rosalind Mandell, vocalist.

Assistance in securing this superb musical organization was given by George Quaal, of Ishpeming, the man responsible for many of the splendid concerts that have been given in Ishpeming, Marquette and Escanaba in recent seasons of the past.

TELLS OF VISIT TO HOLY LAND

Escanaba Man Addresses
Women's Club

The Manistique Women's club gained a better understanding of the Holy Land at their Tuesday meeting as George Grenholm, Escanaba recreation director, told of his experiences while there from 1942 to 1945. He explained that the tense situation found in the Holy Land today was caused primarily by the presence of such a great number of religions in so small a spot. Each religion or group believing in their right to the country they are struggling to control. He therefore urged the women to keep their senses along with both their feet on the ground while viewing this explosive situation and work to the end that peace and sanctity may again return to this Holy Land which has changed little geographically since Biblical times.

The Rev. Paul Sobel closed the program with violin selections accompanied by Mrs. A. F. Hall. The ladies then enjoyed dainty refreshments served from a lovely spring decorated table by the following: Mrs. Richard Wille, chairman, Mrs. George Schweikert, Mrs. Molly Wygal, Mrs. Keith Bundy, Mrs. George Woods, Mrs. Robert Schmeling, Mrs. Sidney Bouwer, and Mrs. John Moffatt.

It was announced that the club would hold a Thrift Sale Tuesday, April 27. It was voted to contribute five dollars each to the following funds: Cancer Control, Crippled Children and Red Cross.

Jeanne Smith Becomes Bride Of Paul Larson

Zion Lutheran church was the scene of the wedding on Saturday evening, March 27, of Miss Jeanne Arline Smith, daughter of Mr. and Mrs. Orville Smith, Deer street, and Alfred P. Larson, son of Mr. and Mrs. John Larson, Garden avenue.

Baskets of mixed flowers adorned the altar for the 8 o'clock service which was performed by the Rev. G. A. Herbert. Mrs. Harry Ahlstrom, organist, played the traditional nuptial music and also accompanied Miss Margaret Burgess who sang, "I Love You", and "Because."

The bride, who was given in marriage by her father, wore a gown of white satin, fashioned with a sweetheart neckline, long train, peplum trimmed with seed pearls, and long sleeves tapered to points at her wrists. Her finger-tip veil, edged with matching lace, fell from a beaded crown. She carried the handkerchief which her grandmother carried at her wedding, and her only jewelry was a seed pearl choker, a gift of the bridegroom. The bride flowers consisted of an arm bouquet of red roses.

Miss Kathleen Curran, close friend of the bride, and maid of honor, was attired in a gown of baby blue tulle with low bodice, and puffed sleeves, and a headband of pink rosebuds. She carried an arm bouquet of pink roses and baby breath.

Charles Larson attended his brother as best man, and ushers were Robert Thorell, friend of the couple, and James Larson, cousin of the bridegroom.

Mrs. Smith attended her daughter's wedding wearing a grey suit with black accessories, and the bridegroom's mother, Mrs. Larson, wore a 2-piece navy blue dress with grey accessories. Both mothers wore corsages of red roses.

Following the ceremony, a reception for 150 guests, was held in the church basement. Decorations consisted of cedar boughs and candles, and placed on the attractive table were the bride's and groom's cakes.

Mrs. Smith and groom are both graduates of Manistique high school with the class of 1946. The bride is employed at the Northern Woolen Goods store, and the bridegroom is employed at the Manistique Cleaners. They will make their home in the Schofield Apartments on Deer street.

Out-of-town guests at the wedding were: Mr. and Mrs. Charles Smith and daughter, Suann and Mr. and Mrs. Francis Smith of Gladstone; Mr. and Mrs. Fred Chernak, jr., Pelican Lake; Patricia Carrington of Rhineland; Mr. and Mrs. James Holmes of East Lansing; Mr. and Mrs. A. E. Schofield of Rosedale Gardens; and Misses Peggy Bauers and Margaret Storvik, of Chicago.

The bride was honored recently at three showers one given by Mrs. Ernest Smith, Mrs. Lyle Smith, Mrs. Kenneth Smith, and Mrs. Harry Swarstrom aunts of the bride, another by Mrs. James Larson and Mrs. Robert Thorell, and one by Misses Kathleen Curran and Madeline Olesak.

Liquor Commission To Slash Inventory

Lansing (AP)—The State Liquor Control Commission has disclosed plans to slash its liquor inventory \$8,000,000 by June 30.

The commission said it had been assured that there is little likelihood of grain restrictions being reimposed to curtail whiskey manufacture.

The commission said its present inventory of 895,552 cases would be cut to approximately 600,000 cases by June and the dollar value reduced from \$26,000,000 to \$18,000,000.

The inventory reduction, the announcement said, will produce a record \$29,500,000 for the state's general fund this year compared to \$19,646,416 for last year.

DEATH TAKES MRS. JACHOR

Had Been In Ill Health For More Than Year

Mrs. Enie Jachor, 74, widow of the late Tom Jachor, passed away yesterday at St. Francis hospital where she had been confined for the past month. Death was attributed to complications attendant advanced age.

The deceased was born July 15, 1873 and on March 10, 1895 she was united in marriage to Tom Jachor. The Jachors resided in Gladstone since the turn of the century, Mr. Jachor until his retirement in July 1937 having served the Soo Line in the capacity of switchman and night yardmaster. Mr. Jachor passed away in 1938.

During the past two years Mrs. Jachor had made her home with the Peter McIntyres on Wisconsin avenue. Her health started to fail about a year ago. The deceased was Methodist by faith. Fraternally she was affiliated with the Royal Neighbors. Surviving are one daughter, Mrs. Winnie of Cornell, four grandchildren and a sister-in-law, Miss Bessie Jachor, Manistique.

The body was removed to the Kelley Funeral home.

Mass Vaccination Planned in Europe

New York—The largest mass vaccination of children ever undertaken is about to get under way in 11 European countries. The vaccinating will be done in an attempt to stop the tuberculosis epidemic which has followed the war.

BCG, made from living but greatly weakened TB germs, will be used. The germs have lost their power to cause disease but are able to mobilize the body's TB-resisting forces and thus give immunity to the disease.

Some 15,000,000 children will be vaccinated, according to present plans. Before the actual vaccinating starts, 50,000,000 children will be tested for susceptibility to tuberculosis.

Tourist Council Will Be Organized

Formation of a tourist council to promote tourist business locally is desirable, it was decided at a meeting of local resort and cottage owners Tuesday evening at the Chamber of Commerce offices.

The C-C is aiding in the formation of the council and also in the promotion of resort trade in the area. Secretary J. A. VanArman said yesterday.

A central listing agency to assist tourists in obtaining accommodations locally has been suggested and likely will become a reality.

A second meeting will be held on Thursday, April 15, and all local resort owners will be notified of the meeting.

A meeting of restaurant owners and operators in this area also will be held in the near future.

RANGERS START OUT ALL EVEN

New Yorkers Meet Wings Tonight In 5th Tilt

Detroit, April 1 (P)—Riding a gallant and effective comeback right back into the thick of a fight for a position in the National Hockey League's Stanley Cup finals, the New York Rangers, battered but unbowed, earned a fresh start today in their first round series with the favored Detroit Red Wings.

Surging back to capture two straight games in New York after dropping the first two clashes with the Red Wings in Detroit, the Rangers headed into tonight's fifth game all square with the second place Detroiters and hopeful their momentum would carry through tonight's critical encounter.

A third straight Ranger triumph would put the blueshirts in position to settle the series in the sixth game Sunday on their home ice. Defeat here, however, would leave the Rangers needing two straight last ditch victories to avert elimination.

Their defense strength hard-hit by injuries to Bill Moe and Frank Eddolls, the Rangers looked for help from their New Haven farm club in the minor leagues for the balance of the best-of-seven set with Detroit.

Coach Frank Boucher called up defenseman Jack Lantieri and center Nick Mickoski from New Haven and said they would dress for tonight's scrap. Two other recruits, center Ken Davies and right wing Duncan Fisher were standing by in New York for possible duty when the series returns there Sunday.

Detroit also had additional help from the minors available today in defenseman Al Dowsbury, center Max McNab and goalie Terry Sawchuk, fresh in from Omaha of the United States league, but Coach Tommy Ivan wouldn't say whether any of them would be in uniform.

The inspired Rangers were expected to stick with the same starting lineup that had held them up through the first four games. Neil Colville and Jean Paul Lamirande of Fred Shero were to take the two defense posts, in front of goalie Chuck Rayner and behind a forward line consisting of Ed Laprade, Ed Kullman and Tony Leswick.

Detroit was certain to stick with Harry Lumley in goal, Bill Quackenbush and Jack Stewart in defense and the "Abe Line" of center Sid Abel and wingmen Gordon Howe and Ted Lindsay out front.

With the series settled into a dogfight, attendance was expected to climb more than 1,000 ahead of the disappointing crowds of 12,249 and 12,553 that saw the first two playoff games here.

ROWDYISM IN BOSTON

Boston, April 1 (P)—Before Boston's Bruins and Toronto's Maple Leafs tangle in the fourth game of their National Hockey League playoff series tonight, two officials scheduled to handle the game are due to answer assault charges in municipal court.

There will be additional police on duty at the Boston Garden to prevent rowdiness which followed Tuesday's game.

Referee Frank (King) Clancy and Linesman George Hayes are expected to file innocent pleas to charges of assault and battery on Edward P. Shallow, 46, of Boston, who alleges the pair mistreated him Tuesday night.

The charges brought by Shallow were the latest developments of the turbulent contest between the two clubs at the Garden Tuesday.

The game, marked by several fights between players, was called off.

Crisler Silent On Report He Will Leave Ann Arbor

BY JOHN F. MAYHEW

Ann Arbor, Mich., April 1 (P)—A wave of speculation was sweeping the University of Michigan campus and the sports world alike today in the wake of a published statement that athletic director Fritz Crisler was planning to enter private industry.

The story, originating in the Detroit News yesterday, said the prominent Michigan football figure would take a "position in Chicago" in the next three months. It drew no denial from Crisler—only a repetitive "no comment."

With that same response, the handsome, 49-year-old coach of Michigan's greatest modern football team greeted every question concerning the possible change.

University officials, closely connected with the athletic department, expressed complete ignorance of any such intention on the part of Crisler.

Members of the University Board of Regents, through which such a move would have to be cleared, said such a possibility had not entered their minds.

Ralph Aiger, member of the Michigan board in control of athletics and school representative to the Western Conference, concurred.

"There has been absolutely nothing to lead me to believe that Fritz is planning to leave," he said.

The news said Crisler "had negotiated for a position in Chicago for a position that presumably will pay several times his present salary of \$14,500 at Michigan."

Speculating on a successor, the paper suggested that Ernie McCoy, one of Crisler's assistants, might take over as director of athletics.

The Detroit News story brought to a boil speculation that had just begun to simmer down after Crisler's resignation as head coach two weeks ago.

Attributing that move to the press of duties in the administrative end of his triple job as head coach, athletic director and head of the physical education department, Crisler turned over to assistant coach Bennie Oosterbaan the job of directing his Western Conference titlists and Rose Bowl champions.

Shortly after Crisler's championship wrote Rose Bowl history with a 49-0 defeat over the University of Southern California, the Pacific Coast champions, the Michigan coach said he was "definitely not interested" in a reported offer of \$50,000 to take over the reins of the Los Angeles Dons professional football team.

The story was soon forgotten but the feeling remained that Crisler would one day step out to a lucrative offer outside the field of athletics.

In 17 years of major collegiate coaching, Crisler built a reputation second to none. He served as head coach at the University of Minnesota and Princeton university and rounded out 10 years at Michigan last season by coping practically all available laurels.

maxed by a jam involving Leafs players and Coach Hap Day and spectators.

Murray Henderson, Boston defense player, suffered a badly broken nose in a fight with Leafs' Harry Watson and is not expected to play tonight.

The Leafs, winners of three straight in the best of seven series, are selected by most observers to wind up this semifinal series tonight and then oppose the winner of the Detroit Red Wings-New York Rangers series for the Stanley Cup.

COLLEGE BOUTS ON AT MADISON

Eight Lads Win Tickets To Olympic Trials

Madison, Wis., April 1 (P)—Eight lucky lads will earn free tickets to the Olympic trials in the National Collegiate Athletic Association Boxing Tournament opening today at the University of Wisconsin.

First-round and quarter-final matches this afternoon and tonight will pare the field of 62 boxers to 32 for tomorrow's semi-finals. Champions in eight weight classes will be crowned Saturday night—and to each will go berths in the Olympic tryouts at Boston June 28-29.

The U. S. Olympic Boxing committee has designated this 11th annual NCAA tournament as one of 11 regional tests to determine the contenders for Boston trials and the NCAA in return has shifted its classes from collegiate to international weights.

The stiffest battling is expected in the middleweight division, with 11 men, including two defending champions, entered.

The top middleweights are Herb Carlson of Idaho and John Lendenski of Wisconsin, who won NCAA titles a year ago at 155 and 165 pounds, respectively. Other titleholders back are 125-pound Gerry Auclair, Syracuse, N. Y., who'll fight as a bantamweight; Charles Davey of Michigan State; lightweight, and Art Saey, Miami (Fla.) heavyweight.

Some of the first round pairings will send Michigan State flyweight Ernie Charboneau against Ralph Campbell of Washington State, Phil Marshall of Michigan State against Julian Levine of Syracuse in the middleweight class. Spartan light-weight George Smith against Wisconsin's

Calvin Vernon, and Art Hughlett of MSC against Vito Parisi of Wisconsin in heavyweight competition.

In the quarter-finals State's Jack Tierney, a welterweight, takes on Jim McCarthy of Superior Teachers College.

Stiff Pace Is Set By Leaders In ABC Bowling In Detroit

Detroit, April 1 (P)—Bowlers who have yet to take their turns in the 45th annual American Bowling Congress tournament must hit some high averages if they expect to rank with the leaders.

It takes an average of 223 for three games to join the top five in singles, and a 208 average over a nine-game test is required to make the all-events board.

Doubles teams must average at least 412 in three games to join the elite. In the five-man competition, teams must top a 989 average over three games to land in the top five.

Few changes in the standings are expected in the next two days while booster quintets take over the alleys. They will dominate the tournament until the late shift tomorrow night.

Yesterday's rolling in minor events saw only one change among the leaders. Richard Dildine of Detroit put together a 1878 all-events total to tie for fifth place in that division.

All-Events
Clarence Collier, Youngstown, Ohio 1922
William Gregory, Mt. Vernon, Ohio 1913
Nick Sandru, Canton, O. 1896
Bob Brierton, Detroit 1892
Robert Welch, Terre Haute, Ind. 1878
Richard Dildine, Detroit 1878
(Other standings unchanged).

Mack Makes First Cut In His Squad

West Palm Beach, Fla., April 1 (P)—Manager Connie Mack will make his formal cut in the Philadelphia Athletics squad tomorrow by optioning three pitchers and an outfielder.

Right-hander Bill Connolly is slated for Buffalo of the International League, Fritz Bernardi, also a right-hander, to an American Association Club not yet designated.

The two others, right-hander Charlie Harris and outfielder Bob Wellman will go to the A's Western League farm at Lincoln, Neb.

Three out of five fatal traffic accidents occur at night.

Calvin Vernon, and Art Hughlett of MSC against Vito Parisi of Wisconsin in heavyweight competition.

In the quarter-finals State's Jack Tierney, a welterweight, takes on Jim McCarthy of Superior Teachers College.

QUINCY MINE 100 YEARS OLD

Company Incorporated
March 30, 1848

Hancock, Mich.—Tuesday marked the 100th anniversary of the founding of the Quincy Mining company. The incorporation of company was formally completed on March 30, 1848, and a special charter was issued to the company by the State of Michigan.

Exploratory work had been done on the lands which later became the property of the company as early as 1846, and plans for the company's organization were being formulated at that time.

The exploration work was begun on Section 26, the tests being made on the hills above Ripley.

The first steps in the organization of the company, according to the records, were taken at Marshall, Michigan, on November 17, 1846.

The minutes of that meeting state that it was "resolved unanimously that the meeting proceed to organize the new company without reference to the Act of the Legislature of 1846." At this meeting articles of association were adopted, and the association was designated as the Quincy Mining company. Eurotas P. Hastings was made president of the company, and Charles Avery was made secretary.

On December 15, 1846, another meeting of the group was held in Detroit. At this meeting James Hicks was appointed treasurer of the company, and the group was informed that the organization had begun operations on the hill north of Portage Lake and had hired a superintendent, a cook, a blacksmith, and a laborer; the combined salaries of these employees amounted to \$85 a month.

Production Rate Increased

Following the formal organization and licensing of the company in 1848, exploration and development work continued, and by 1864 the mine was producing two and a half million pounds of copper a year. Ten years later production was up to three million pounds, in 1884 it hit the six million mark, and by 1891 the output was 10 and a half million pounds. In 1915, two years after the famous Copper Country strike, the Quincy Mining company produced approximately 35 million pounds of copper.

During this period the mining company was constantly acquiring new lands. One of the largest purchases was made in 1906 when 800 acres of mineral lands were purchased from the Arcadian company for \$750,000. This addition brought the holdings of the company up to a total of 29,800 acres, and in 1908 the company purchased the old Franklin Mine property which consisted of 325 acres. By 1915, Quincy properties included those formerly held by Pewabic, Franklin, Mesnard, Pontiac, Arcadian, Hancock, and St. Mary's.

Operations of the company continued without interruption until 1931, when the depression and the drop in copper prices forced suspension of production activities. In 1937 underground operations were resumed and continued until September 1, 1945. Since that time only the reclamation plant at Mason has been in operation. This activity was continued through the period when underground work was stopped. The plant, built during the war, has been paid for out of earnings and it continues to yield a fine return. It has a long life if copper prices do not materially weaken. The reclaimed copper is processed by the Calumet and Hecla refinery.

50th Anniversary of Smelter

Incidentally, 1948 not only brings the centennial of the Quincy mine but it also brings the 50th anniversary of the smelter at Ripley. Quincy began refining its copper at its smelter on Portage Lake, almost one mile from the county bridge, on December 1, 1898. In 1905 a new plant was built. Less than a month before the old Quincy smelter began operations, the Franklin mill, im-

Quincy has produced 714,663,486 pounds of copper and has paid \$27,002,500 in dividends to its shareholders. Known as the "Old Reliable" throughout its production mine years, it is believed development work will be instituted at some future time and that Quincy again will be a primary producer.

Dividends Are Resumed

As a result of profitable operations on the copper sands at Mason, the Quincy Mining Co. has declared a dividend of 25 cents per share, payable April 30 to stockholders at the close of business April 2. This action was taken by the board of directors at a meeting held on March 24 in New York.

BACKACHE, LEG PAINS MAY BE DANGER SIGN

Of Tired Kidneys

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.
